

## 7-In-1 USB-A Hub With DC JACKI USB 3.0 Type A 10Gbps For Laptop And PC

Our Product Introduction

for more products please visit us on [subosen.com](http://subosen.com)

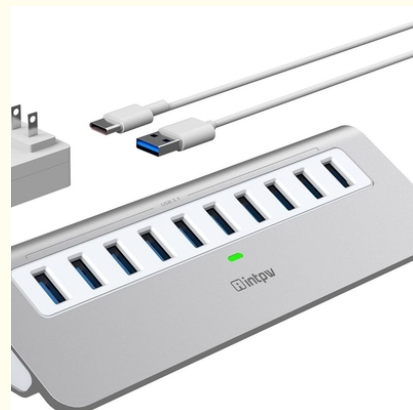

### Basic Information

- Place of Origin: China
- Brand Name: SUBOSEN
- Certification: ISO 9001:2015,CE,FC
- Model Number: YH4S
- Minimum Order Quantity: 500 Pcs
- Price: 2-10usd/pcs
- Packaging Details: Customized Colorful boxes
- Delivery Time: 7-10workdays
- Payment Terms: TT in advance
- Supply Ability: 200000PCS/month

### Product Specification

- Product Type: USB-A Hub 7 Ports
- Dual 4K HDMI Ports: Allows For Dual 4K Monitor Setups.
- Logo: Available
- Color: Silver
- Package Contents: 1 X USB-A Hub, 1 X User Manual
- Ports: 4 USB-A Ports
- Compatibility: Windows, Mac, Linux
- Transfer Speed: Up To 10Gbps
- Power Supply: USB Bus-powered
- Warranty: 1 Year
- Material: Aluminum
- Plug And Play: Yes
- Model: YH4S

## Product Description

### Aluminum 7-in-1 USB-A Hub with DC JACKI USB 3.0 Type A 10Gbps for laptop and PC

#### Product Description:

Upgrade your connectivity experience with our USB-A Hub equipped with Gigabit Ethernet and an DC Jack. This premium hub delivers lightning-fast data transfer speeds and crystal-clear audio output. Its universal compatibility makes it perfect for a variety of devices, from laptops to desktops. Enjoy seamless connectivity and exceptional performance with every use.

#### Features:

4x USB3.0 Type A (10Gbps) .  
2 x USBA BC1.2.  
1 x USBA QC3.0.  
1 x DC JACK 12V/2.5A

#### Technical Parameters:

Raw Cable	Bare Copper
Full Length	15cm
Stable Ethernet Connection	Gigabit Ethernet Supports Up To 10Gbps Speeds
Data Transfer Speed	Up To 10Gbps
Product Type	USB-A Hub 7 Ports
Logo	Available

#### Applications:

**Peripheral Expansion:** USB-A hubs allow users to connect multiple peripheral devices to a single USB-A port on their computer or laptop. This includes devices such as keyboards, mice, printers, scanners, external storage drives, and more. By utilizing a hub, users can expand their system's capabilities without the need for additional USB ports.

**Data Transfer and Backup:** USB-A hubs facilitate efficient data transfer and backup operations by providing multiple ports for connecting external storage devices. Users can transfer files between their computer and external hard drives, USB flash drives, or memory card readers simultaneously. This makes data management tasks more convenient and allows for quick backups of important files.

**Charging Station:** USB-A hubs equipped with charging ports can function as charging stations for smartphones, tablets, portable media players, and other USB-powered devices. Users can charge multiple devices simultaneously, eliminating the need for multiple wall adapters or chargers. This is particularly useful in shared spaces like offices, classrooms, or conference rooms.

## FAQ:

### Frequently Asked Questions for SUBOSEN USB-CA Hub:

**Q:What is a USB-A hub?**

A: A USB-A hub is a device that expands the number of available USB-A ports on a computer or laptop. It allows users to connect multiple USB peripherals to a single USB-A port.

**Q:How does a USB-A hub work?**

A: A USB-A hub works by splitting the bandwidth of a single USB-A port into multiple ports. It contains a controller that manages data communication between the connected devices and the host computer, ensuring seamless connectivity.

**Q:What devices can I connect to a USB-A hub?**

A: You can connect a wide range of USB peripherals to a USB-A hub, including keyboards, mice, printers, external storage drives, smartphones, tablets, and more.

**Q:Can I charge devices using a USB-A hub?**

A: Some USB-A hubs come with charging ports that allow you to charge USB-powered devices such as smartphones, tablets, and portable media players. However, not all USB-A hubs support charging.
