USB A Adapter 4 Port Data Transmission USB3.0

Product Description:

The USB-A to Type C Male and Female Adapter is designed to provide high-speed data transfer rates of up to 5Gbps. This makes it an ideal accessory for transferring large files quickly and efficiently. With this adapter, you can transfer photos, videos, and other data between your devices in seconds.

This adapter has one port, which means that you can connect one device at a time. However, it is small and lightweight, making it easy to carry around with you wherever you go. This makes it a perfect accessory for individuals who are always on the move and need to connect to various devices.

Features:

Applications:

The subosen USB-A adapter is ideal for a wide range of occasions and scenarios. For example, it can be used in the office to connect USB-A devices to new laptops with Type-C ports, ensuring that employees can continue to use their existing peripherals. It can also be used at home to connect older devices with USB-A ports to newer smartphones and tablets with Type-C ports. Additionally, it can be used by students who need to transfer large files between their computers and flash drives quickly and easily.

Support and Services:

The USB-A Adapter provides a reliable and convenient connection solution. Our technical support team is available to assist with any questions or concerns regarding installation or functionality. Our services include product troubleshooting, software updates, and warranty claims. We are committed to ensuring customer satisfaction and providing timely assistance.
