PVC Jacket Male-Female USB C Type C to Displayport Display Adapter Cable for 8K 60Hz Video Audio

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Xput
- Certification: CE Rohs
- Minimum Order Quantity: 500 Pcs
- Price: $0.99 - $6.99/pieces
- Packaging Details: High-grade hanging bags
- Supply Ability: 100000 Piece/Pieces per Month

Product Specification

- Type: COAXIAL, Video Data Transmission, Displayport, DP, Display Port, USB C, Type C
- Application: COMPUTER, DVD Player, HDTV, HOME THEATER, Multimedia, Monitor, Projector, Mobile Phone
- Packing: Polybag
- Outer Diameter: 6.0mm-8.0mm
- Connector Color: Gold
- Connector Type: USB C Type C
- Shielding: Non-Shielded
- Gender: Male-Female, Male-Female
- Jacket: PVC
- Conductor: Bare Copper, 24-30AWG TC/BC/CCS, CCA, Gold Plated
- Product Name: USB C Type C To DP Displayport Adapter Cable

Product Description

Product Description

USB Type C To DP Displayport Display Port HD 8K 60Hz 4K 144Hz Audio Video Converter Adapter Cable 8K60Hz For Tablet Laptop PC

Specification:
Gender: Male-Female
Model Number: USB C to DP 1.4 Female Adapter
Connector A: Type-C
Connector B: Displayport(DP)
Application: Computer,Projector
Shielding: Foil
Feature: USB3.1
Resolution: 8K@60Hz, 4K@144/120Hz
Interface: Type-C/DP female interface
Version: DP1.4 version (compatible with 1.2)
Core: aluminum foil shielding wrapped thickened copper core
Material: gold-plated material interface, aluminum alloy shell
Thread body: woven cotton net wrapped PVC

What it does: USB-C Male to DisplayPort 1.4 Female Adapter (32.4Gbps) Supports up to 7680 x 4320 with this USB-C to DP adapter and compatible devices; connects a laptop with a USB-C or Thunderbolt 3 port to a DisplayPort-capable display. View video on an UHD monitor to expand your workspace, stream video to an UHD TV, or connect to a projector for presentations. (Note: This adapter is not compatible with for Samsung , HP Reverb VR Generation 1)

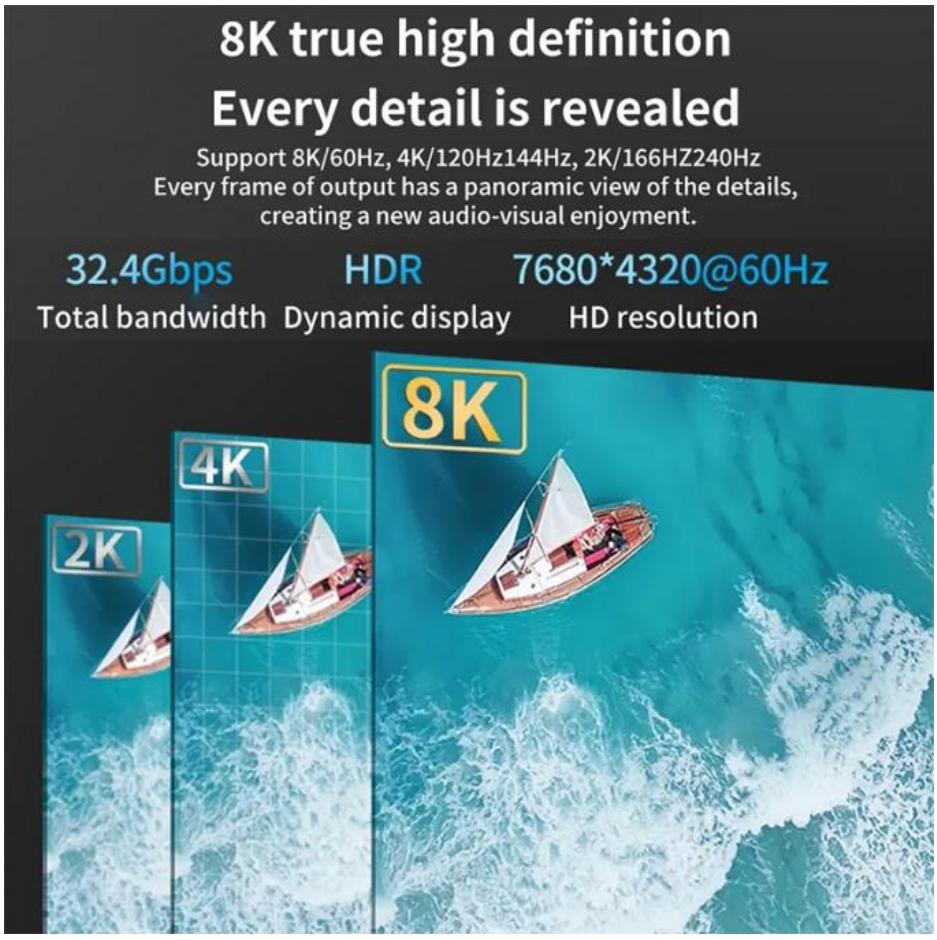
Feature:
1. Enhanced DisplayPort 1.4: With display compression stream capability, DP1.4 supports higher resolutions and refresh rates compared to DP1.2. Enjoy the advantages of high bandwidth, multi-display support, HDR support, and DSC technology.
2. 8K 60Hz High Definition Projection: USB-C to DP1.4 (32.4Gbps) adapter supports Dynamic HDR and 3D visual effects. Experience stunning visual quality with support for 8K@60Hz, 4K@60Hz/144Hz/120Hz, 2K@240Hz/165Hz, and 1080p HD resolutions.
3. 32.4Gbps ,Multiple Display Modes: With a total bandwidth of 32.4Gbps and 32-bit audio channel support, our usb c to dp 1.4 adapter ensures stable and smooth performance for large-scale gaming and provides precise audio positioning for an enhanced gaming experience.Choose between mirror mode, where both screens display the same content, perfect for large-screen movies or gaming, or extend mode, where each screen shows different content, ideal for multitasking between work and entertainment.
4. Dynamic HDR,Multi-Layer Shielding: Advantage from dynamic HDR support, which brings rich and vibrant picture details to the screen. Enjoy vivid colors, enhanced brightness, and improved contrast, showcasing more detailed content and elevating your viewing experience.Our usb c maleto dp 1.4 female cable features multiple layers of shielding, ensuring a stable and interference-free signal transmission. Say goodbye to black screens or flickering issues caused by external interference.
5. Plug-and-Play: Type-c to displayport 1.4 cable converter allows for instant connection and clear display of every detail. Enjoy a cinematic IMAX-like experience with clear visuals. It also supports full functionality for Type-C smartphones and tablets, enabling high-definition projection and various display modes. The durable aluminum alloy housing ensures effective heat dissipation and stable operation. The gold-plated plug is sturdy and corrosion-resistant, while the braided nylon cable provides durability and resistance against pulling and tangles.

8K60HZ

Multi-layer shielding
Reject black screen/splash screen
Upgraded thickened copper core, plus double-layer aluminum foil shielding,
to ensure signal
Not subject to external interference, the transmission is more stable

Laptop connected to large screen TV
Plug and play, small screen becomes large screen
Laptop connection Plug and play, clearly display every detail
The pictures are brilliant and give you the IMAX theater experience
8K60HZ

32.4Gbps high bandwidth
32-bit audio channel
Powered by 32.4Gbps total bandwidth and 32-bit audio channels
Large-scale games run stably and smoothly,
and the game supports position recognition by listening to the sound.
Any disturbance can be heard clearly, and the operation is one step faster



8K true high definition
Every detail is revealed
Support 8K/60Hz, 4K/120Hz144Hz, 2K/166HZ240Hz
Every frame of output has a panoramic view of the details,
creating a new audio-visual enjoyment.
