*Please confirm whether your laptop is compatible with each of the USB Hub's function before purchasing.

More Details:

*Please read these details about the EUASOO USB C Hub before purchasing.

1.The USB C Hub must be places on a desk or in a well ventilated area when in use.

2.Confirm your laptop's input port can support each of the USB Hub's function, like HDMI or VGA, otherwise those certain ports may not function properly.

3.Power is shared between all dock-connected USB C devices and will adjust based on what is plugged in at the time. (Example: Macbook 65W adapter input= 5W for hub+4W for USB Ports+4W for Ethernet port+52W for Macbook)

4. USB ports are intended for data transfer and does not have the right amount of power output to charge electronic devices.

5.All of our products do not support USB C Female to USB Male Adapter, since the converter will cause our hub lose all functions.

6. When the HDMI and VGA output ports work simultaneously, The display will only duplicate and not extend.
