Product Description

Thunderbolt Laptop Connection Compatibility Thunderbolt Power Delivery Up To 85/100W Powerful Performance

Product Description:

The Thunderbolt Docking Station is designed with high-quality materials and advanced technology, and it supports Power Delivery up to 85/100W, so you can charge your laptop while using the dock. The logo of this Thunderbolt Docking Station is OEM/ODM, which means it is a reliable and trustworthy brand.

With the Thunderbolt Docking Station, you can connect multiple devices to your laptop or notebook, including external hard drives, monitors, keyboards, and mice. The RJ45 Ethernet port provides 10/100/1000Mbps network connectivity, so you can stay online and connected to your network, even when you are away from your desk.

The Thunderbolt Docking Station is designed to provide fast data transfer speeds of up to 5/10Gbps, so you can transfer large files quickly and easily. The dock is also easy to set up and use, with plug-and-play functionality that requires no drivers or software installation.

Whether you are a professional or a student, the Thunderbolt Docking Station is an essential accessory for anyone who needs to connect multiple devices to their laptop or notebook. With its Thunderbolt Laptop Connection and Thunderbolt Notebook Port Extender

capabilities, this Thunderbolt Connection Hub is the perfect solution for anyone who needs to work on the go or who needs to stay connected and productive while away from their desk.
