## Product Description

### Docking Station Product Description:

The USB-C Docking Station Hub is a versatile and essential accessory for any modern workspace or home office setup. This USB-C Port Replicator offers a convenient solution for connecting multiple devices to your laptop or desktop through a single USB-C port, providing seamless connectivity and enhanced productivity.

One of the standout features of this USB-C Multiport Docking is its high-speed Ethernet connection, supporting speeds of up to 1Gbps. This allows for fast and reliable network connectivity, ensuring smooth online experiences whether you're streaming content, video conferencing, or downloading large files.

Thanks to its plug-and-play functionality, this USB-C Docking Station Hub is incredibly easy to set up and use. Simply connect your devices to the docking station, plug it into your laptop or computer's USB-C port, and you're ready to go. No additional drivers or software installation is required, making it a hassle-free solution for expanding your device's connectivity options.

For users who require high-quality video output, this USB-C Port Replicator offers HDMI support with resolutions of up to 4K at 60Hz. Whether you're editing videos, gaming, or simply enjoying multimedia content, the dual 4K display support ensures crisp and clear visuals on compatible monitors or TVs.

Equipped with USB 3.0 technology, this USB-C Multiport Docking provides standard connectivity for a wide range of USB devices, including external hard drives, keyboards, mice, and more. With fast data transfer speeds and backward compatibility with older USB versions, you can easily connect and use your existing peripherals without any issues.

Furthermore, the USB-C Docking Station Hub offers support for dual 4K displays, allowing you to expand your screen real estate and multitask efficiently. Whether you're working on multiple projects simultaneously, comparing documents side by side, or enjoying a seamless dual-monitor setup for enhanced productivity, this docking station provides the flexibility and performance you need.

In conclusion, the USB-C Docking Station Hub is a feature-rich and reliable accessory that enhances connectivity and productivity for users with USB-C-enabled devices. With its high-speed Ethernet support, plug-and-play convenience, 4K HDMI video output, USB 3.0 standard, and dual display capabilities, this USB-C Port Replicator is a versatile solution for expanding your device's capabilities and streamlining your workflow.

### Docking Station Features:

Product Name: USB C Docking Station

Display Support: Dual 4K Displays

Power Supply: USB-C PD 100W

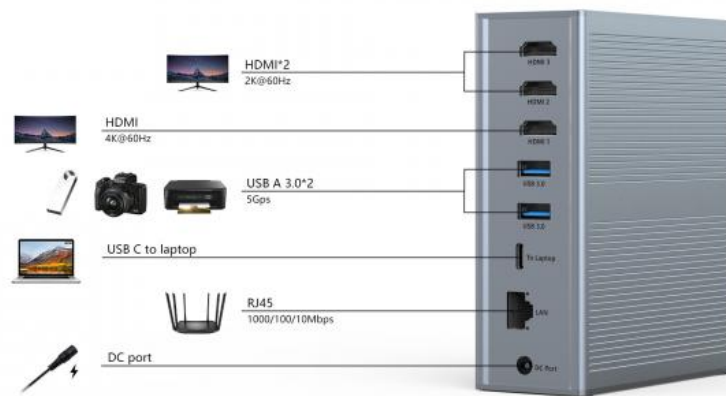

Products Status: Stock

Standard: USB3.0

Operating System: Windows, Mac, Chrome OS

### Docking Station Technical Parameters:

Standard	USB3.0
Compatibility	USB-C Devices
Weight	4.9 Ounces
Ethernet Speed	Up To 1Gbps
Package Contents	Docking Station, USB-C To USB-C Cable
Display Support	Dual 4K Displays
Maximum Resolution	4K
Video Resolution	Up To 4K @ 60Hz
Products Status	Stock
Power Supply	USB-C PD 100W

## High speed data transfer

USB 3.0 transfer speed up to 10Gbps/s

## Multi-screen output meets various needs.

Connect your phone to a large-screen TV, monitor or projector for simultaneous charging.  
Connect a USB drive, mouse or keyboard for more convenient mobile office work.

### Docking Station Applications:

When it comes to versatile connectivity solutions for USB-C devices, the SUBOSEN DC009-X1 USB-C Docking Station Hub is the go-to choice. With its sleek design and advanced features, this docking station adapter is suitable for a wide range of product application occasions and scenarios.

One of the key attributes of the SUBOSEN USB-C Docking Station Hub is its high compatibility with USB-C devices, making it an ideal

choice for users who work across different platforms. Whether you are using a Windows laptop, a Macbook, or a Chromebook, this docking station hub ensures seamless connectivity and data transfer.

For professionals who require high-resolution displays, the SUBOSEN DC009-X1 offers exceptional video output capabilities. With HDMI support for up to 4K resolution at 60Hz, this docking station adapter is perfect for tasks that demand clarity and precision. Additionally, the dual 4K display support allows users to expand their workspace and enhance productivity.

Another key feature of the SUBOSEN USB-C Docking Station Hub is its fast Ethernet speed, reaching up to 1Gbps. This is essential for users who rely on stable and high-speed internet connections for their work or entertainment needs.

Whether you are working in an office setting, attending virtual meetings, or enjoying multimedia content at home, the SUBOSEN DC009-X1 USB-C Docking Station Hub caters to a variety of usage scenarios. Its compact design and reliable performance make it a valuable accessory for professionals, students, and tech enthusiasts alike.

With certification from CE, FCC, and RoHS, customers can trust the quality and safety of the SUBOSEN USB-C Docking Station Hub. The product's place of origin in Dongguan further reinforces its reputation for durability and precision engineering.

In terms of procurement, the SUBOSEN USB-C Docking Station Hub has a minimum order quantity of 500pcs, priced at \$59.3USD per piece. The packaging details include customized colorful boxes, adding a touch of personalization to each unit.

With a delivery time of 30 workdays and payment terms of TT in advance, customers can expect a smooth and efficient purchasing process. The supply ability of 200,000pcs per month ensures that demand can be met consistently and promptly.

## Docking Station Customization:

Product Customization Services for the USB-C Docking Station:

- Brand Name: SUBOSEN
- Model Number: DC009-X1
- Place Of Origin: Dongguan
- Certification: CE, FCC, RoHS
- Minimum Order Quantity: 500pcs
- Price: \$59.3USD/PCS
- Packaging Details: Customized Colorful Boxes
- Delivery Time: 30 Workdays
