

Transform Your Workstation with Our USB C Hub for High-Speed Data Transfer and Multiple Device Connections

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Your brand
- Certification: CE,FCC, Rohs
- Model Number: YH3AC
- Minimum Order Quantity: 300 pcs
- Price: \$28.57usd a piece
- Packaging Details: Brown paper box, can customize
- Delivery Time: 15 days for sample, 25 days for bulk order
- Payment Terms: T/T
- Supply Ability: 200000/ month

Product Specification

- Dual Display Support: Supports Dual Or Triple Display Setups
- Function: Video Transfer + Charging+ Network
- Micro Sd Card Reader: Supports Micro SD, Micro SDHC, And Micro SDXC Cards
- Display Resolution: Up To 4K@60Hz
- Compatibility System: Windows , MacOS, HarmonyOS
- Sd Card Reader: Supports SD, SDHC, And SDXC Cards

Product Description

USB-C Hub: Connect Multiple Devices Simultaneously

The USB-C Hub is a versatile accessory that significantly expands your device's expansion capabilities. It supports simultaneous multi-device connection, allowing users to expand multiple USB ports, HDMI ports, SD card slots, Ethernet ports, and more from a single USB-C port, meeting the needs of multiple devices, including laptops, tablets, and phones. Whether plugging in a USB flash drive or external hard drive, or connecting a monitor, keyboard, and mouse, the USB-C Hub easily solves the problem of port shortages in modern office and entertainment scenarios. Its compact and portable design makes it easy to carry around, making it ideal for frequent office and travel users.

Product Data Sheet

Parameter Item	Specifications
Port Type:	1 x USB-C, 3 x USB 3.0
HDMI Output:	Supports 4K/5K HD Video
SD/TF Card Slot:	Dual SD and TF Card Slots
Ethernet:	1000Mbps Gigabit Ethernet
Power Input:	Supports PD Fast Charging up to 100W
Data Transfer Speed:	Up to 10Gbps
Material:	Aluminum Alloy
Compatible Systems:	Windows/macOS/Linux
Plug and Play:	No Driver Required
Dimensions:	120mm x 35mm x 15mm

High-Speed Data Transfer and HD Video Output

The USB-C Hub supports high-speed data transfer of up to 10Gbps, meaning even large files or HD videos can be transferred in seconds, greatly improving work and entertainment efficiency. It also supports 4K/5K HD video output, allowing users to project their laptop or tablet screen onto a large-screen monitor or projector for a high-definition audio and video experience. Whether it's business presentations, video editing, or home theater entertainment, the USB-C Hub provides stable and smooth video transmission.

Improve Multitasking Efficiency

The USB-C Hub helps users multitask and improve work efficiency. By simultaneously connecting a mouse, keyboard, USB flash drive, monitor, and other devices, users can easily complete tasks such as document editing, data transfer, and video conferencing without having to frequently swap ports or plug and unplug devices. This efficient port expansion capability is particularly suitable for modern office environments, maximizing the productivity of laptops and mobile devices.

Plug-and-play, convenient use

The USB-C Hub requires no additional software or drivers to install; it's plug-and-play. Simply plug the USB-C Hub into a device's Type-C port to instantly access all its expanded features. This simple and convenient feature not only reduces the learning curve and usage requirements, but also avoids driver installation failures and system compatibility issues, ensuring a smoother work and entertainment experience.
